- <sup>5.3)</sup> Which ones were beneficial to you? Which ones were not? Please explain below:
- Both Bernard and Kacy were helpful during their office hours and willing to meet with me outside of office hours due to conflicts in our schedules.

- <sup>6.1)</sup> Additional Comments
- Bernard is awesome.
- I understand that this is a core course and the homework is helpful in learning the material. I personally would have liked biweekly homework that was 6-8 questions rather than weekly 3-4 question long homework. By the end of the semester I was quite bogged down by homework and I feel though the biweekly is the same amount of work I would be able to work ahead and get it done with enough time to earn a small break for myself. The concern is of course that some students will wait until the last minute and be up all night because they procrastinated their homework. It is ultimately up to you, but perhaps you can ask the students at the beginning of the semester if they would prefer biweekly or weekly homework. I really liked that the instructor asked us at the beginning of the semester when we would like our exams and worked with us to schedule them.
