4. About Course

5. About You

5.3) Which ones were beneficial to you? Which ones were not? Please explain below:

- The instructors' office hours were very helpful. It was a way for me to get the problems I did not understand in a slower more descriptive way.
- The other options are not available for this type of course and probably would not be appropriate
- none

5.4) What grade do you expect from this course?

6. Other

6.1) Additional Comments

- Cool
- Dr. Lidicky puts in a lot of work and cares about doing a good job. His class is dull though and I found the groupwork to not be helpful. I would prefer more lecturing and less time in groups. He did a good job testing learning with nongraded individual quizzes.
- I felt that giving such a high amount of credit for resubmitting test corrections was unfair to those who did well originally. I appreciated the use of feedback throughout the course.
- I like using LaTeX for the homeworks, and I really appreciate that templates were provided.
- I really liked Professor Lidiky and this course. I don't work so well in groups it is very distracting, it makes me feel like I should just try to solve the problem later when I can think about it without all the people. But I am sure others like this sort of thing.
- Very good teaching and homework style. The provided packets were great to learn from, and the latex homework was interesting and fun.
- Very great professor, he listened to the students needs. I liked how towards the end he did less worksheets and more learning on the chalk board.
- none
