6. Other

6.1) Additional Comments

- Bernard is the best
- Great teaching style, keeps learning from being stressful
- I enjoyed this class very much - thank you for teaching it.
- Other than the teacher being a little hard to understand, everything was excellent.
- Putting questions on exams that require memorizing the name of a theorem or the name of a type of graph and then weighting them the same as the rest of the questions doesn't make the test accurately reflect my learning or skills.
- Sometimes I found his handwriting difficult to decipher, but it was not an overly huge issue. I really liked how he would give problems on worksheets in class and walk around answering any questions about them. Concerning homework, I found that there were usually several that were quite time consuming, which often made it difficult for me to complete them with my schedule.
- The professor is super handsome!
- Very challenging course, homework was difficult and took a long time to complete each week.

7. Demographic (REQUIRED) - These questions are only requested for research purposes. They will not be associated with you individually and will not be disclosed to the instructor. An answer is required for both questions.
